Explanatory Note

The Trade Register Office is set-up by Law No. 26/1990, reissued and modified by OUG No. 129/2002, became an active institution since December 1990 and is structured in two levels:

- the national level, represented by the National Trade Register Office organised under the Ministry of Justice
- the local level, represented by the 42 trade register offices attached to the law courts and co-ordinated by the National Trade Register Office

The categories of businessmen compulsory to register in the trade register are:

- natural persons tradesmen and family associations doing usually commercial acts, commercial companies, national companies, companies under state supervision, and co-operative organisations
- subsidiaries registered as commercial companies and legal persons following the legal proceedings of set-up, activity and incorporation according to the type of the legally set-up company.

Usual Terms:

- incorporation – represents the registration of the company in the trade registry awarding the quality of legal person.

- other statutory documents – represent the official registration of the changes occurred in a company's life, such as: changes in headquarters' address, increase or decrease of the issued capital, merger, liquidation, strike-off, etc.

- strike-off – represents the removal of a company from the trade registry, due to dissolution and liquidation, being also the very moment the company loses its quality of legal person. Data also include the companies under the provisions of Law No. 314/2001.

- change of certificate – represents the obligation of companies set-up before OGU No. 76/2001 republished came in force, to request the incorporation certificate and fiscal registration certificate to be replaced with the new registration certificate containing the given unique registration code.

The ratio of these changes is being calculated as a proportion between the effective number of changes and the number of active companies due to operate the change.

- active company from the legal point of view – a company registered in the trade register and which is not affected by any of the situations leading to the temporary or permanently loss of this status (e.g. dissolution, liquidation, strike-off)

- operations represent all the records in the trade registry including incorporations, other statutory documents and strike-off of companies, irrespective of the object of activity, company's type and origin of the subscribed capital (local or foreign investment).

GENERAL OVERVIEW

The statistical synthesis “Operations in the Central Trade Register” includes the results of operations recorded in the Central Trade Register until end of March 2003, upgraded on the basis of data forwarded by the Trade Register Offices in the counties.

Based on the provisional data, this paper shows the trend in the development of the business community in Romania, whatever the sector of activity, type of company and origin of the subscribed capital (local or foreign) is, as result of operations due to the legislation in force concerning the trade register, as:

- incorporation of new companies;
- changes in statutory documents of existing companies;
- liquidation/dissolutions of companies;
- strike-off of companies;
- reissuing of registration certificates by replacement of old certificates

The present statistical synthesis does not reveal the operations concerning companies by foreign direct investment in particular, but these data are included in the general data presented hereby.

The following main aspects are highlighted through this paper:

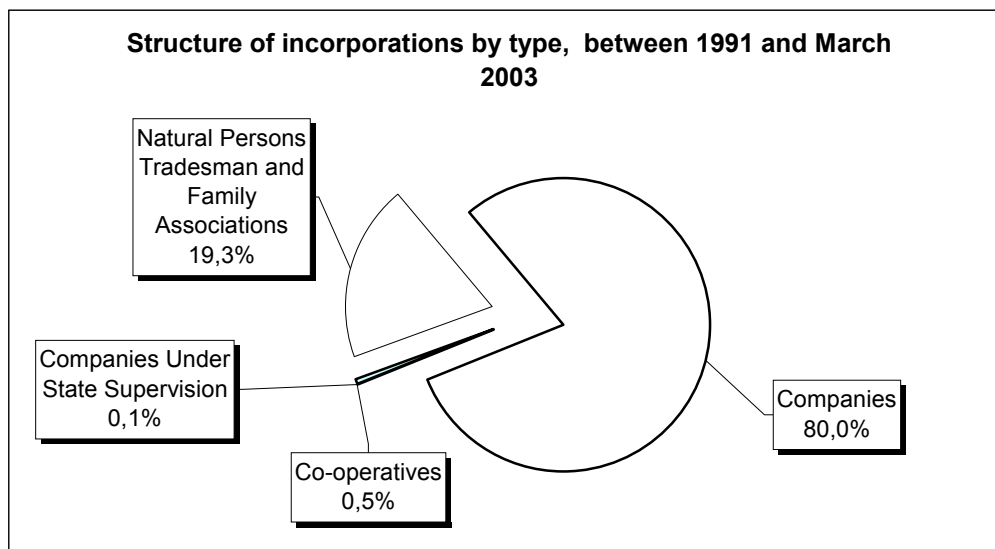

- In the period December 1990 - March 2003:
 - ✓ The total number of records in the trade registers was of 3,103,874, structured as follows: incorporations 32.8%, changes in statutory documents 61.2% and strike-off documents 6% (Table no. 1.a).
 - ✓ The structure by years of the number of incorporations in the trade registers, as it is showed in the diagram below, reveals the fact that around 55% of total incorporations were registered in the period of December 1990 – 1995 (Table nr 3).

Diagram no.1

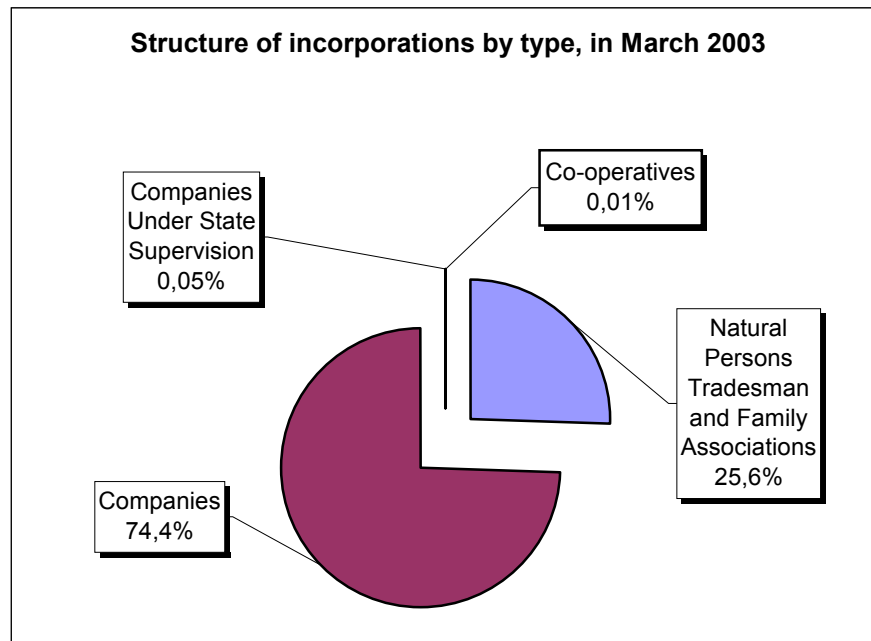

- ✓ In what concerns the origin of the issued capital, in the related period, from the total of 1,019,075 incorporations, 1,007,055 (98.82%) are companies registered by private capital, 3,531 (0.35%) by majority state capital and the rest of 8,489 (0.83%) by mixed capital (state + private).
- ✓ The structure by type of incorporations during the same period is the following: 196,905 natural persons tradesman and family associations, 815,615 companies, 1,260 companies under State supervision and 5,295 co-operative organisations (Table no. 5).

Diagram no. 2

- ✓ Between January - March 2003, 23,533 new companies were incorporated representing 2.31% of total incorporations in the period December 1990 - March 2003.
- In March 2003:
 - ✓ The total number of records is 38,178 of which 8,168 are incorporations (21.4%), 27,490 changes in statutory documents (72%) and 2,520 strike-off of companies (6.6%). The highest number of incorporations in March 2003 was registered in Bucharest Municipality, that is 1,374 incorporations of new companies (17.9% of total operations). The number of changes in statutory documents recorded in Bucharest Trade Register Office, in March 2003, was of 6,225 (81.3% of total operations) (Table no. 7).
 - ✓ The structure by type of incorporations in March is the following: 2,088 (25.6%) natural persons tradesman and family associations, 6,075 (74.4%) companies and 4 (0.05%) companies under State supervision and 1 co-operative. (Table no. 9)

Diagram no. 3

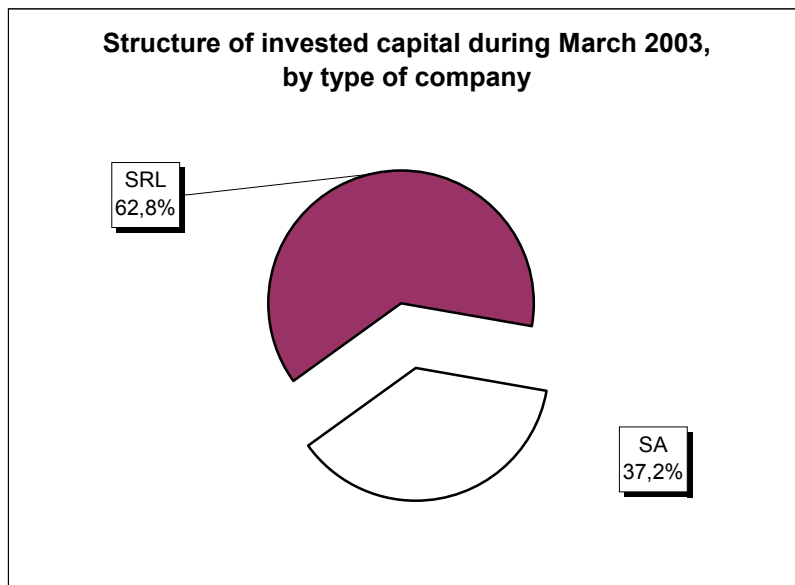

- ✓ In what concerns the origin of the issued capital, from the total of 8,168 incorporations, 8,161 are companies by private capital, 6 by state capital and 1 by mixed capital (state + private) (Table no. 8).

- ✓ With regard to the number of the incorporated companies and the amount of the subscribed capital, according to their legal status, 5,980 of the total number of incorporations are limited liability companies, totalising 150.8 billion ROL (62.8% of the total capital subscribed in companies) and 86 are joint-stock companies, with a total amount of 89.2 billion ROL in subscribed capital, representing 37.1% of the total capital subscribed in companies (Table no. 12).

The amount of the subscribed capital in the 6,075 new incorporated companies is of 240.1 billion ROL, that is an average of 39.8 million ROL per company.

The highest amount of the subscribed capital is registered in Bucharest Municipality reaching 117.4 billion ROL, and in Braşov county reaching 18.6 billion ROL. The average amount of the subscribed capital per company, in March, varies a lot from county to county, from 2.1 million ROL in Mehedinţi county to 97.6 million ROL in Braşov county (Table no. 11).

Diagram no. 4

- The weight of incorporations of companies in total operations with the trade registers reveals the trend in increasing the number of operations due to changes in statutory documents. So, if the number of incorporations was of 64% in total operations during 1994, in 2001 it was 17% only and 21.4% in March 2003.

The increasing dynamics of operations concerning changes in statutory documents, reflects at the same time:

- ✓ changes due to the companies' activity and related to shareholders, address of the registered office, and/or sector of activity, etc.
 - ✓ investment in capital of existing companies, sourcing from the registered profit included and from cession of shares or reducing of capital, etc.
 - ✓ the increasing number of records due to implementation of Law no. 64/1995 republished concerning the procedure of judiciary reorganisation and bankruptcy and of Law no. 314/2001 on regulating the status of some companies.
- The number of reissuing the incorporation certificates by replacement with the new registration certificates is significantly different from county to county. Up to 31 of March 2003, the highest rates in reissuing the certificates were registered in the following counties: Braşov 56.1%, Brăila 50.8%, Covasna 49,1% and Cluj 47.9%. At country's level, the average rate of reissuing of certificates is of 37.9% (Table no. 2).

- The number of strike-off of companies during December 1990 – March 2003 is very different by county. The highest number of strike-off of companies registers the Bucharest Municipality (63,350 that is 31.2% of the total number of incorporations). The following next counties are Constanța (12,252 and 28.1%) and Timiș (8,332 and 25.2%).

The data and the particular aspects in this general overview reveals the significant dimension of the activity in the trade register offices, in order to insure the legality and order in functioning of all types of companies, compulsory by law to request incorporation with the trade register before starting any activity and to request as well to be registered any changes in statutory documents due to deeds and actions stipulated by law to be registered, during the lifetime of the company and in the end of activity.
