Explanatory Note

The Trade Register Office is set-up by Law No. 26/1990, reissued and modified by OUG No. 129/2002, became an active institution since December 1990 and is structured in two levels:

- the national level, represented by the National Trade Register Office organised under the Ministry of Justice
- the local level, represented by the 42 trade register offices attached to the law courts and co-ordinated by the National Trade Register Office

The categories of businessmen compulsory to register in the trade register are:

- natural persons tradesmen and family associations doing usually commercial acts, commercial companies, national companies, companies under state supervision, and co-operative organisations
- subsidiaries registered as commercial companies and legal persons following the legal proceedings of set-up, activity and incorporation according to the type of the legally set-up company.

Usual Terms:

- incorporation – represents the registration of the company in the trade registry awarding the quality of legal person.

- other statutory documents – represent the official registration of the changes occurred in a company's life, such as: changes in headquarters' address, increase or decrease of the issued capital, merger, liquidation, strike-off, etc.

- strike-off – represents the removal of a company from the trade registry, due to dissolution and liquidation, being also the very moment the company loses its quality of legal person. Data also include the companies under the provisions of Law No. 314/2001.

- change of certificate – represents the obligation of companies set-up before OGU No. 76/2001 republished came in force, to request the incorporation certificate and fiscal registration certificate to be replaced with the new registration certificate containing the given unique registration code.

The ratio of these changes is being calculated as a proportion between the effective number of changes and the number of active companies due to operate the change.

- active company from the legal point of view – a company registered in the trade register and which is not affected by any of the situations leading to the temporary or permanently loss of this status (e.g. dissolution, liquidation, strike-off)

- operations represent all the records in the trade registry including incorporations, other statutory documents and strike-off of companies, irrespective of the object of activity, company's type and origin of the subscribed capital (local or foreign investment).
