## 2. FUNDAMENTAREA ȘI CONDIȚIILE DIVIZĂRII PARȚIALE (ART. 241 LIT. (B) DIN LEGEA 31/1990)

### 2.1. TEMEIUL LEGAL AL DIVIZĂRII PARȚIALE

- 2.1.1. Prezentul Proiect de desprindere în interesul acționarilor a fost întocmit în temeiul dispozițiilor **art. 250<sup>1</sup>**, coroborate cu prevederile **art. 238** și următoarele referitoare la divizare din Legea 31/1990, cu prevederile Ordinului nr. 897/2015 pentru aprobarea Normelor metodologice privind reflectarea în contabilitate a principalelor operațiuni de fuziune, divizare, dizolvare și lichidare a societăților, precum și de retragere sau excludere a unor asociați din cadrul societăților (în continuare „**OMFP 897/2015**”) și ale Legii nr. 227/2015 privind Codul fiscal, cu modificările și completările ulterioare (în continuare „*Codul Fiscal*”).
- 2.1.2. Având în vedere prevederile **art. 250<sup>1</sup> litera a)** din Legea 31/1990 operațiunea de față reprezintă o **desprindere în interesul acționarilor**. Potrivit acestui articol:  

„Prevederile prezentului capitol referitoare la divizare, cu excepția art. 250 alin. (1) lit. c), se aplică și atunci când o parte din patrimoniul unei societăți se desprinde și este transferată ca întreg uneia sau mai multor societăți existente ori unor societăți care sunt astfel constituite, în schimbul alocării de acțiuni sau părți sociale ale societăților beneficiare către:

a) acționarii sau asociații societății care transferă activele (desprindere în interesul acționarilor ori asociaților); [...].”
- 2.1.3. Prin urmare, prevederile **art. 238** și următoarele referitoare la divizare din Legea 31/1990 vor fi aplicate în mod corespunzător.
- 2.1.4. De asemenea, pentru evitarea oricărui dubiu, în cuprinsul prezentului Proiect, operațiunea care face obiectul Proiectului va fi denumită „*desprindere*”, „*divizare*”, „*divizare parțială*” sau „*desprindere în interesul acționarilor*”, după caz.
- 2.1.5. Acționarii Societății Divizate sunt și vor rămâne în continuare acționari ai acestei societăți în limita rotunjirilor aritmetice la aplicarea mecanismelor descrise în prezentul Proiect. Ca urmare a operațiunii de Divizare parțială, toți acționarii Societății Divizate vor primi un număr de părți sociale în Societatea Beneficiară, în conformitate cu regulile de repartizare stabilite în prezentul Proiect.
- 2.1.6. Din punct de vedere fiscal, operațiunea reprezintă o divizare parțială și distribuirea de părți sociale în Societatea Beneficiară, inclusiv valoarea fiscală a acestora, se va face proporțional către acționarii Societății Divizate și vor fi respectate prevederile art. 32 alineatul (1), litera c)

si alineatul (6) litera b) din Codul Fiscal. De asemenea, in conformitate cu art. 32 alineatul (3), transferul activelor si pasivelor este tratat ca transfer neimpozabil, pentru diferenta dintre pretul de piata al activelor/pasivelor transferate si valoarea lor fiscală.

2.1.7. În speță sunt aplicabile prevederile Normelor metodologice privind reflectarea în contabilitate a principalelor operațiuni de fuziune, divizare, dizolvare și lichidare a societăților, precum și de retragere sau excludere a unor asociați din cadrul societăților aprobate prin OMFP nr. 897/2015 (în cuprinsul prezentului „Normele Metodologice” sau „OMFP 897/2015”).

## 2.2. FUNDAMENTAREA ECONOMICĂ A DIVIZĂRII PARȚIALE

2.2.1. Societatea Divizata este detinuta integral de entități aparținând aceleiași grup de investitori și având aceiași beneficiari finali, ceea ce asigura un acord total al acționarilor in privinta operatiunii de Divizare partiala.

2.2.2. Scopul economic al Divizării parțiale îl constituie restructurarea activitatii Societatii Divizate în vederea unei mai bune administrări a portofoliului de active și a creșterii eficienței acestora, a unei alocari mai eficiente a resurselor necesare, precum si administrarea mai buna a riscurilor specifice fiecarei ramuri a afacerii.

2.2.3. **Societatea Divizată** are două ramuri de activitate,

2.2.3.1. Ramura care se ocupa cu arendarea terenurilor agricole proprii, sub codul CAEN 6820 – *Inchirierea si subinchirierea bunurilor imobiliare proprii sau inchiriate* – numita in continuare **ramura “Arendare”** si

2.2.3.2. Ramura care se ocupa cu vanzarea terenurilor agricole proprii si, în subsidiar, cu administrarea contractelor de vanzare cu plata in rate, in cazurile in care vanzarea terenurilor se realizeaza cu plata in rate, sub codul CAEN 6810 – *Cumpararea si vanzarea de bunuri imobiliare proprii*, numita in continuare **ramura “Vanzari si Investitii”** denumita prescurtat in continuare „V&I”.

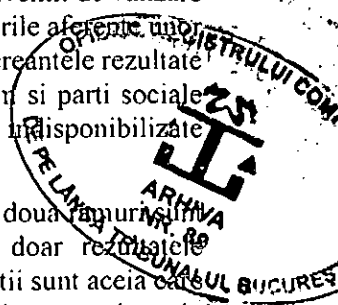

2.2.4. Criteriile principale pentru separarea ramurii de activitate **Vanzari si Investitii** sunt existenta la Data de referinta pentru Divizarea partiala, a unor contracte de vanzare-cumparare semnate sau in curs de semnare, a unor conventii si promisiuni de vanzare, a unor documente de negociere a vanzarii in faza avansata, care se vor finaliza cu semnari de promisiuni, conventii sau contracte pana la data ședinței Adunării Generale Extraordinare a Acționarilor Societății Divizate pentru aprobarea Divizării parțiale, a unor investitii in partile sociale ale unei societati, precum si existenta unor unor finantari din partea actionarilor si a unor datorii (de exemplu dividende de plata) a caror sursa de rambursare sunt vanzarile de terenuri.

2.2.5. Activitățile celor două ramuri sunt foarte diferite, fiind astfel independente:

(i) Ca natură a activelor, ramura V&I detine in proprietate terenurile disponibile pentru vânzare, din care o parte sunt terenuri grevate de promisiuni si de conventii de vanzare care se vor transforma pe termen scurt in contracte de vanzare, terenurile aferente unor contracte de vanzare semnate, cu plata in rate si rezerva proprietatii, creantele rezultate din contractele de vanzare cu plata in rate aflate in derulare, precum si parti sociale detinute intr-o societate, in timp ce ramura **Arendare** detine terenuri disponibilizate ca active pe termen lung si care sunt exploatate prin arendare;

(ii) Expertiza necesara si segmentele de piata carora li se adreseaza cele doua ramuri sunt foarte diferite, pentru arendare clientii fiind aceia care doresc doar rezultatele exploatarii agricole a terenurilor, in timp ce pentru ramura V&I clientii sunt aceia care investesc pentru a obtine bunuri imobile – terenuri agricole – pe care le pot exploata in moduri diferite, cea mai mare parte din ei fiind deja sub contract cu Societatea Divizata;

(iii) Din punct de vedere al desfasurării în timp a activitatii, care influenteaza perspectiva afacerii – arendarea este o activitate care presupune exploatarea pe o perioada nedeterminata a unor active (terenuri agricole) in timp ce vanzarea de terenuri si

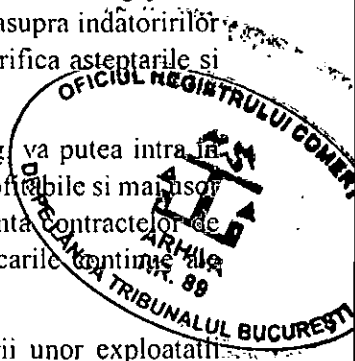

administrarea contractelor de vanzare cu plata in rate presupune o activitate de exploatare prin vanzare a terenurilor agricole disponibile pentru vanzare, care este limitata in timp dar si o activitate de tip financiar-investitional privind administrarea sumelor rezultate din vanzare si a investitiilor viitoare. Aceasta activitate este in mod special diferita ca mod de desfasurare si administrare de ramura Arendare, iar cele doua ramuri au de infruntat riscuri specifice, diferite:

- (iv) Din punct de vedere al managementului, al calificarii personalului necesar, al modului de compensare si al perspectivei temporale, diferentele sunt majore. Datorita diferentelor evidente intre cele doua ramuri, acestea au management operational diferit, o structura diferita de personal si indicatori de performanta diferiti, rezultatele celor doua ramuri nefiind comparabile. Organigramele si personalul celor doua ramuri de activitate sunt prezentate in **Anexa 2**.

2.2.6. Intenția acționarilor este de a desprinde ramura **Vanzari si Investitii** din Societatea Divizată și a o transmite spre administrare eficientă Societății Beneficiare, incluzând o conducere și un personal experimentat, avand calificari specifice acestei activitati.

2.2.7. Avantajele cele mai importante ale separarii celor doua ramuri provin din faptul ca la nivel local, unde se afla terenurile in proprietatea Societatii Divizate, interfereaza doua procese cu scopuri si desfasurare diferite, ceea ce nu permite optimizarea costurilor si a riscurilor iar indisponibilizarea terenurilor existente pentru exploatare pe termen lung impune o abordare noua a celor doua activitati, astfel:

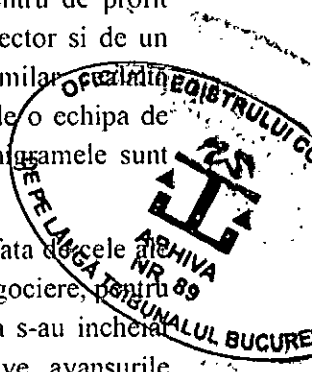

- (1) Arendarea in conditii de randament optim al investitiei in terenurile agricole implica un proces de comasare a terenurilor astfel incat sa fie formate suprafete continue cat mai mari, care pot fi exploatate agricol eficient din punct de vedere al costurilor. Aceasta presupune inclusiv schimburi de terenuri cu alti proprietari si cooperarea cu arendasii pentru a ajunge la acorduri intre mai multi proprietari de terenuri si arendasi. Aceasta este o activitate complexa, care necesita personal si prestatori avand o buna cunoastere a realitatilor locale si relatii bune de afaceri in zonele respective, precum si un sistem de masurare a performantelor calibrat.
- (2) Acolo unde obtinerea unor loturi exploatabile eficient nu a putut fi realizata si unde randamentul arendarii este limitat, inclusiv ca perspectiva pe termen lung, a fost luata decizia vanzarii terenurilor. Odata vandute, administrarea contractelor cu plata in rate necesita mai ales expertiza juridica si o activitate de colectare a creantelor, complet diferita de activitatea de arendare.
- (3) Prin separarea ramurilor, se stabileste care sunt terenurile pentru care nu va mai exista o intenție si un efort de vanzare pe termen lung, toate eforturile fiind indreptate spre comasari de suprafete si spre cooperarea cu arendasii capabili sa obtina loturi exploatabile eficient. Aceasta va avea efect atat asupra managementului si a angajatilor care nu isi vor mai diviza eforturile si vor avea o perspectiva clara asupra îndatoririlor și performantelor asteptate, cat si asupra clientilor, care isi vor clarifica asteptările si planurile de afaceri.
- (4) Ramura de **Arendare**, avand o stabilitate pe termen mediu și lung va putea intra în contracte de arendare pe termene mai lungi decât în prezent, mai profitabile si mai usor de adaptat modificarilor legislative care se afla in proiect in privinta contractelor de arendare. In acest mod va fi limitat riscul reprezentat de modificarile continute ale legislatiei in domeniul terenurilor agricole si al exploatarii lor.
- (5) Aceasta abordare pe termen lung deschide perspectiva intemeierii unor exploatari agricole de catre Societatea Divizată, acolo unde suprafetele, calitatea solului si facilitatile tehnice disponibile vor permite elaborarea unor planuri de afaceri cu randament mai mare si riscuri mai mici decat arendarea.

- (6) Eliminarea perspectivei vanzarii terenurilor la ramura de **Arendare** va facilita concentrarea activitatii si in directia obtinerii actelor de proprietate pentru terenurile unde inca nu exista Cadastru, iar finalizarea acestuia reprezinta inca o perspectiva pe termen lung.
- (7) Randamentul si caracteristicile investitiei in ramura de **Arendare** poate fi mai usor comparat si optimizat prin raportare la afacerile similare ale altor investitori din tara si din tarile unde actionari ai Societatii Divizate au investitii similare, facilitand transferul de expertiza si usurand luarea deciziilor la nivel superior.
- (8) Pentru ramura de **V&I**, care va finaliza vânzările de terenuri și va administra contractele de vanzare incheiate cu plata in rate, va rezulta o optimizare a costurilor, transformand aceasta ramura – din punctul de vedere al acționarilor – intr-un activ financiar cu venit fix cunoscut, exploatabil pe o durata limitata, cunoscuta, si cu un nivel de risc controlabil prin politici si proceduri specifice.
- (9) Durata limitata a contractelor de vanzare, care implica minimum 5 (cinci) ani de administrare, de fapt nu limiteaza in timp in niciun fel activitatea Societatii Beneficiare si a ramurii de activitate, avand in vedere ca:
  - a. Nu toate aranjamentele de vanzare existente (negocieri in stadiu avansat, promisiuni, conventii si contracte) se vor finaliza, ci unele vor fi reziliate, urmand a se relua vanzarea terenurilor respective;
  - b. Fondurile obtinute din vânzarea de terenuri devin disponibile pentru activitatea de investitii, iar personalul si procedurile Societatii Beneficiare vor avea deja pregatirea pentru administrarea noilor investitii.
- (10) Pentru acest tip de administrare a unor active in principal financiare, managementul și modul de lucru sunt complet diferite. Astfel si relatiile cu clientii pe parcursul procesului de colectare a creantelor, conduse de alt personal decat cel de arendare, vor fi mai putin susceptibile sa influenteze relatiile de afaceri de arendare, în cazurile unde clientii celor doua linii de afaceri pot fi comuni.
- (11) Acționarii Societatii Divizate fac parte dintr-un grup de investitori care detine afaceri in domeniul serviciilor financiare, fiind disponibila o larga expertiza in administrarea eficienta si eficace a activelor de natura financiara pe care acționarii intentioneaza sa o aplice si in Societatea Beneficiară care va detine ramura de **Vanzari si Investitii**.

2.2.8. Ramura de activitate **Vanzari si Investitii** satisface cerințele art. 32 din Codul Fiscal, alineatul (2) litera g) și a punctului 34. din Normele Metodologice la data realizării operațiunii de desprindere:

- a) activitatea este o structură organizatorică distinctă, reprezentând un centru de profit organizat în cadrul Societății Divizate, condus în mod direct de un director si de un membru al consiliului de administratie cu atributii specifice. În mod similar ramură de activitate a Societății Divizate este asigurata în mod direct de o echipa de management condusa de un administrator, cu atributii specifice. Organigramele sunt prezentate in **Anexa 2**;
- b) ramura care se desprinde are active și pasive distincte, usor de deosebit fata de cele ale ramurii ramase, aceste active fiind terenuri aflate in stadii avansate de negociere, pentru care s-a stabilit vanzarea ca mod de valorificare, terenuri asupra carora s-au incheiat documente de vanzare sau premergatoare vanzarii, contractele respective, avansurile primite de la clientii pentru terenuri si finantari si datorii (credite actionari proportional cu terenurile transferate si dividende de plata) a caror sursa de rambursare este activitatea

de vanzare a terenurilor. Clientii sunt cei care investesc in terenuri agricole, diferiti ca abordare de clientii ramurii **Arendare**, care doresc doar exploatarea agricola a terenurilor arendate.

- c) ramura de activitate **V&I** are buget propriu, conturi bancare proprii, proceduri proprii, baze de date distincte, mod de bonusare distinct pentru management si pentru angajati, iar rezultatele se înregistrează distinct în contabilitate si sunt raportate distinct acționarilor;
- d) ramura care se desprinde reprezintă un ansamblu care funcționează exclusiv prin mijloace proprii de mai multi ani. Principiul utilizat a fost cel de a valorifica terenurile pentru care vanzarea ofera cel mai bun randament al investitiei, din rezultatele vanzarii acoperindu-se costurile și datoriile, fără intervenția unei structuri centrale sau a altei ramuri de activitate a Societății Divizate. Durata de viata a Societatii Beneficiare care va desfasura activitatea ramurii desprinse este nelimitata, viitorul pentru care poate fi creat un plan de afaceri cu probabilitate mare de realizare fiind de cel puțin 5 (cinci) ani, iar fondurile obtinute din activitatea de **V&I** vor fi disponibile pentru alte investitii.
- e) toate activele și pasivele ramurii **V&I** se regasesc în bilanțul și în registrele Societății Divizate. Cu ocazia inventarierii efectuate la **31.12.2020**, data **Situațiilor financiare de desprindere**, sunt evidențiate distinct în Listele de inventariere și în Registrul inventar activele și pasivele care aparțin ramurii desprinse și care vor fi preluate în bilanțul Societății Beneficiare la data la care operatiunea produce efecte;
- f) activitatea de **V&I** se desfășoară de mulți ani și va fi continuată de Societatea Beneficiară pentru mai mulți ani, neexistand nici intenția si nici posibilitatea de a lichida activitatea;
- g) ramura de activitate desprinsă nu va cuprinde elemente de activ și pasiv aferente unei alte ramuri de activitate și nici active și pasive izolate, neincluse în nicio ramură de activitate;
- h) în Societatea Divizată rămâne o ramură de activitate profitabilă, astfel încât aceasta își va continua activitatea în mod independent, pe durată nedeterminată.

- 5.1.1. Conform OMFP 897/2015 punctul 15 litera (b), prima de divizare reprezintă diferența între valoarea aportului rezultat din divizare și valoarea cu care a crescut capitalul social al Societății Beneficiare. In prezenta desprindere, această prima de divizare ar fi in valoare de **181.465.287,33 lei**.
- 5.1.2. Insa Societatea Beneficiara se infiinteaza in urma desprinderii si preia elemente de capitaluri de la Societatea Divizata, cont la cont, conform **punctului 4.2.3.**, de intreaga valoare a diferentei intre aportul net de divizare si capitalul social, astfel ca diferenta ar putea apărea doar din rotunjiri aritmetice ale capitalului social pentru un numar intreg de pați sociale.
- 5.1.3. Calculand în acest mod, valoarea primei de divizare la Data de referinta este de 0,00 (zero) lei.

## **6. CONDIȚIILE ALOCĂRII DE PARTI SOCIALE LA SOCIETATEA BENEFICIARĂ ȘI RATA DE SCHIMB A PĂRȚILOR SOCIALE (ART. 241 LIT. (C) ȘI (E) DIN LEGEA 31/1990)**

### **6.1. CONDIȚIILE EMITERII ȘI ALOCĂRII DE PĂRȚI SOCIALE LA SOCIETATEA BENEFICIARĂ**

- 6.1.1. Numărul de acțiuni ale Societății Divizate înainte de desprindere este de **141.100 acțiuni** cu valoarea nominală de 1 leu/acțiune, capitalul social fiind de **141.100 lei**, deținut de doi actionari.
- 6.1.2. Societatea Beneficiara se infiinteaza ca urmare a Divizarii parțiale conform prezentului Proiect sub forma unei societăți cu răspundere limitată, părțile sociale emise având valoarea nominală de **1 leu**.
- 6.1.3. Astfel, în decursul emiterii și alocării de părți sociale la Societatea Beneficiară, ca urmare a Divizării parțiale a Societății Divizate, rotunjirile se vor face până la valoarea de 1 leu (o parte socială), și eventualele diferențe din rotunjiri care vor apărea între deținerile procentuale inițiale ale acționarilor la Societatea Divizată și părțile sociale primite la Societatea Beneficiară plus acțiunile pe care le vor mai deține la Societatea Divizată, vor fi nesemnificative.

6.1.4. Fiecarui acționar al Societății Divizate îi va fi alocat un număr de părți sociale emise de Societatea Beneficiară egal cu rezultatul rotunjirii până la cel mai apropiat întreg al numărului obținut prin înmulțirea numărului de părți sociale ce urmează a fi emis de Societatea Beneficiară cu ponderea procentuală a acțiunilor deținute de acționarul respectiv în numărul total de acțiuni deținute de acționarii Societății Divizate.

**6.2. DETERMINAREA NUMĂRULUI DE ACȚIUNI ȘI A CAPITALULUI SOCIAL ANULATE DE CĂTRE SOCIETATEA DIVIZATĂ**

6.2.1. Numărul de acțiuni anulate la Societatea Divizată, ca urmare a desprinderii ramurii de activitate „Vanzari si Investitii”, se determină ca raport între activul net contabil desprins și activul net contabil al Societății Divizate, înmulțit cu numărul total de acțiuni, rezultatul fiind rotunjit la cel mai apropiat număr întreg.

6.2.2. Conform acestor calcule, numărul de acțiuni care se anulează în desprindere este de **46.546**, capitalul social care se anulează este de **46.546,00 lei**, așa cum este prezentat în memoriul de calcul prezentat în **Anexa 1**.

6.2.3. Fiecarui acționar al Societății Divizate îi va fi anulat un număr de acțiuni în Societatea Divizată, egal cu rezultatul rotunjirii până la cel mai apropiat întreg al numărului obținut prin înmulțirea numărului de acțiuni anulate de Societatea Divizată, cu ponderea procentuală a acțiunilor deținute de acționarul respectiv în numărul total de acțiuni deținute de acționarii Societății Divizate.

6.2.4. Toate calculele privind numărul de acțiuni la Societatea Divizată și părți sociale la Societatea Beneficiară, capitalul social și ponderea acționarilor, respectiv a asociaților, sunt sumarizate în tabelul de la **punctul 6.4.6**.

**6.3. DETERMINAREA CAPITALULUI SOCIAL AL SOCIETĂȚII BENEFICIARE**

6.3.1. Întrucât Divizarea parțială a Societății Divizate are loc prin transferul de active și pasive către o societate beneficiară nou înființată, determinarea cuantumului capitalului social la aceasta din urmă, precum și repartizarea părților sociale emise de către Societatea Beneficiară către acționarii Societății Divizate se face pe baza unor criterii specifice de repartizare, conform OMFP 897/2015 și pe baza hotărârii Adunării Generale a Extraordinare a Acționarilor Societății Divizate prin care se aproba Divizarea parțială în forma prevăzută în prezentul Proiect.

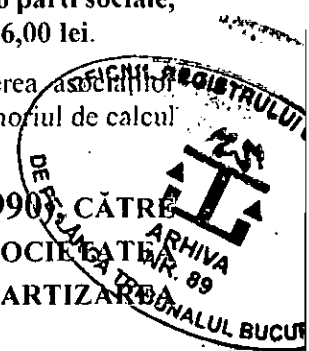

6.3.2. Numărul de părți sociale emise de către Societatea Beneficiară va fi egal cu numărul de acțiuni anulate de către Societatea Divizată, întrucât au aceeași valoare nominală de 1 leu. Capitalul social nou emis de către Societatea Beneficiară este egal cu numărul de părți sociale emise înmulțit cu valoarea nominală a părții sociale la Societatea Beneficiară.

6.3.3. Ca urmare a acestor calcule, Societatea Beneficiară va emite un număr de **46.546 parti sociale**, cu valoarea nominală de **1 leu fiecare**, capitalul social al acesteia va fi de **46.546,00 lei**.

6.3.4. Toate calculele privind numărul de părți sociale, capitalul social și ponderea asociaților Societății Beneficiare sunt sumarizate în tabelele de la **punctul 6.4.6**, și în Memoriul de calcul din **Anexa 1**.

**6.4. CONDIȚIILE ALOCĂRII (ART. 241 LIT. (C) DIN LEGEA 31/1990), CĂTRE ACȚIONARIII SOCIETĂȚII DIVIZATE DE PĂRȚI SOCIALE LA SOCIETATEA BENEFICIARĂ ȘI CRITERIILE PE BAZA CĂRORA SE FACE REPARTIZAREA (ART. 241 LIT. (K) DIN LEGEA 31/1990)**

6.4.1. Ca urmare a Divizării parțiale, se va înființa Societatea Beneficiară cu un capital social conform **punctului 6.3.**, de **46.546,00 lei**, emițând **46.546 parti sociale** cu valoarea nominală de **1 leu fiecare**.

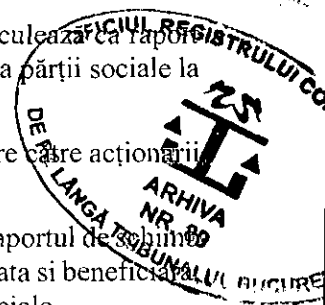

- 6.4.2. Aceste părți sociale vor fi alocate acționarilor Societății Divizate, fiecare dintre ei urmând să primească un număr de părți sociale nou emise la Societatea Beneficiară egal cu numărul total de părți sociale nou emise înmulțit cu ponderea procentuală deținută de asociatul respectiv în totalul acțiunilor la Societatea Divizată, rotunjit la cel mai apropiat număr întreg.
- 6.4.3. În acest mod, valoarea contabilă a părților sociale primite de fiecare acționar al Societății Divizate în Societatea Beneficiara este egală cu valoarea contabilă a acțiunilor anulate acestuia în Societatea Divizată, în limita rotunjirilor aritmetice, iar valoarea contabilă totală a acțiunilor deținute de fiecare acționar și de toți acționarii împreună la Societatea Divizată înainte de Divizarea parțială, este egală cu valoarea contabilă a acțiunilor deținute de fiecare acționar al Societății Divizate și de toți împreună la Societatea Divizată, după desprindere, plus valoarea contabilă a părților sociale la Societatea Beneficiară, după înființarea sa și primirea ramurii de activitate transferată, din nou, în limita rotunjirilor aritmetice. După Divizarea parțială, fiecare acționar al Societății Divizate își va conserva valoarea contabilă a acțiunilor deținute în limita rotunjirilor aritmetice necesare pentru a obține numere întregi de acțiuni și respectiv părți sociale la Societatea Divizată și la Societatea Beneficiara.
- 6.4.4. Calculele privind numărul de acțiuni, respectiv părți sociale, capitalul social și ponderea acționarilor, respectiv asociaților, sunt exemplificate în tabelul de la **punctul 6.4.6.** de mai jos.
- 6.4.5. Între data elaborării Proiectului de desprindere și Data Efectivă a Desprinderii pot avea loc tranzacții cu acțiuni ale Societății Divizate, care ar duce la modificarea calculelor prezentate mai jos.
- 6.4.6. În cazul în care nu vor avea loc evenimente de natura celor prezentate la punctul anterior, structura acționarilor Societății Divizate și a asociaților Societății Beneficiare după desprindere vor fi cele din tabelul de mai jos:

Societatea Divizata			Societatea Beneficiara

## **6.5. RATA DE SCHIMB A ACTIUNILOR CU PĂRȚI SOCIALE ȘI CUANTUMUL EVENTUALELOR PLĂȚI ÎN NUMERAR (ART. 241 LIT. (E) DIN LEGEA 31/1990)**

- 6.5.1. Conform OMFP 897/2015, rata de schimb a acțiunilor/părților sociale se calculează ca raport între valoarea contabilă a acțiunii la Societatea Divizată și valoarea contabilă a părții sociale la Societatea Beneficiară.
- 6.5.2. Pe baza ratei de schimb se dau la schimb părți sociale ale Societății Beneficiare către acționarii Societății Divizate.
- 6.5.3. În cazul unei Societăți Beneficiare înființate în procesul de Divizare parțială, raportul de schimb este egal cu raportul valorilor nominale ale titlurilor celor două societăți, divizată și beneficiară, în limita rotunjirilor aritmetice la numere întregi de acțiuni, respectiv părți sociale.
- 6.5.4. Rata de schimb calculată astfel în această Divizare parțială este de **1,0000 părți sociale ale Societății Beneficiare emisa pentru o (1) acțiune anulată de Societatea Divizată**, în limita rotunjirilor aritmetice.

- 6.5.5. Rata de schimb este justă întrucât reflectă în mod corect Situațiile contabile ale societăților participante, așa cum au fost stabilite prin Situațiile financiare de divizare, și păstrează valoarea contabilă a detinerilor acționarilor, în limita rotunjirilor aritmetice.
- 6.5.6. Sulta reprezintă suma de bani rezultată din diferența de valoare dintre acțiunile deținute la Societatea Divizată și părțile sociale primite la Societatea Beneficiară. Menționăm că **nu se acordă sultă**. Nu vor fi efectuate plăți în numerar către acționarii Societății Divizate.

## **7. DATA DE LA CARE PĂRȚILE SOCIALE EMISE DE SOCIETATEA BENEFICIARĂ PENTRU ACȚIONARIII SOCIETĂȚII DIVIZATE DAU DEȚINĂTORILOR DREPTUL DE A PARTICIPA LA BENEFICII, INCLUSIV DIVIDENDE, ȘI ORICE CONDIȚII SPECIALE CARE AFECTEAZĂ ACEST DREPT (CF. ART. 241 LITERA (D) DIN LEGEA 31/1990)**

- 7.1.1. Desprinderea își va produce efectele de la data înmatriculării Societății Beneficiare la Oficiul Registrului Comerțului de pe lângă Tribunalul competent, potrivit articolului 249 lit. a) din Legea 31/1990 (în cuprinsul prezentului „**Data Efectivă a Desprinderii**”).
- 7.1.2. Acționarii Societății Divizate vor intra în posesia părților sociale emise de Societatea Beneficiară la Data Efectivă a Desprinderii, dată la care vor fi de asemenea înscrise în registrul asociațiilor Societății Beneficiare și la Registrul Comerțului.
- 7.1.3. Părțile sociale emise de Societatea Beneficiară, alocate acționarilor Societății Divizate, vor da dreptul de a participa la beneficii precum și orice alte drepturi și obligații, cu începere de la Data Efectivă a Desprinderii.
- 7.1.4. Drepturile de proprietate ale Societății Beneficiare asupra activelor și pasivelor preluate de la Societatea Divizată ca efect al Divizării parțiale (transfer cu titlu universal), se vor transmite de drept Societății Beneficiare de la Data Efectivă a Desprinderii. Pentru evitarea oricărui dubiu, această transmisivitate de drept a drepturilor de proprietate și a celorlalte drepturi reale este aplicabilă în privința oricărui și tuturor activelor dobândite de Societatea Beneficiară de la Societatea Divizată.

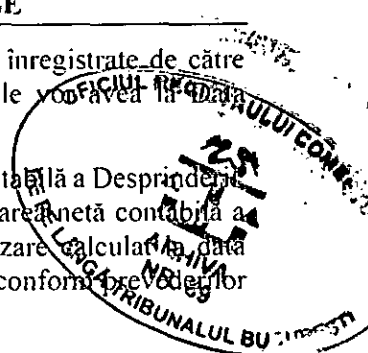

## **8. DATA DE LA CARE TRANZACȚIILE SOCIETĂȚII DIVIZATE, AFERENTE RAMURII TRANSFERATE PRIN DESPRINDERE, SUNT CONSIDERATE DIN PUNCT DE VEDERE CONTABIL ȘI FISCAL CA APARTINÂND SOCIETĂȚII BENEFICIARE (CF. ART. 241 LITERA (J) DIN LEGEA 31/1990):**

- 8.1.1. Data de la care tranzacțiile Societății Divizate, corespunzătoare ramurii de activitate transferată prin desprindere, sunt considerate din punct de vedere contabil ca aparținând Societății Beneficiare, (în continuare «**Data Contabilă a Desprinderii**») este ziua înmatriculării Societății Beneficiare la Oficiul Registrului Comerțului de pe lângă Tribunalul competent, fiind aceeași cu **Data Efectivă a Desprinderii**.

## **9. ASPECTELE FINANCIAR-CONTABILE ALE DIVIZĂRII PARȚIALE**

- 9.1.2. Având în vedere că, între data Situațiilor financiare de divizare și Data Contabilă a Desprinderii Societatea Divizată își va desfășura activitatea în condițiile uzuale, valoarea netă contabilă a patrimoniului transferat va fi diferită de valoarea aportului net de divizare calculat la data Situațiilor financiare de divizare. Diferența de valoare va fi compensată conform prevederilor clauzelor 4.2.8. – 4.2.13. din prezentul Proiect de divizare parțială.
